

Enterprise-Grade eDiscovery

Solve Your Big Data Challenges in
One Secure Platform.

Say hello to more efficiency, more security, and more control of your data with Casepoint's powerful cloud-based eDiscovery solution.

Casepoint provides a truly crafted end-to-end solution for the entire data discovery process. Our scalable technology is trusted by the largest corporations, law firms, and government agencies to manage their expanding and complex data needs.

▮ No Matter Your Needs, Casepoint is Fit For the Task at Hand

Legal Hold, Preservation & Data Collection

Litigation (eDiscovery)

Investigations & Compliance

Data Privacy & Regulatory Responses

FOIA & Public Record Requests

The End-to-End Solution You've Been Searching For

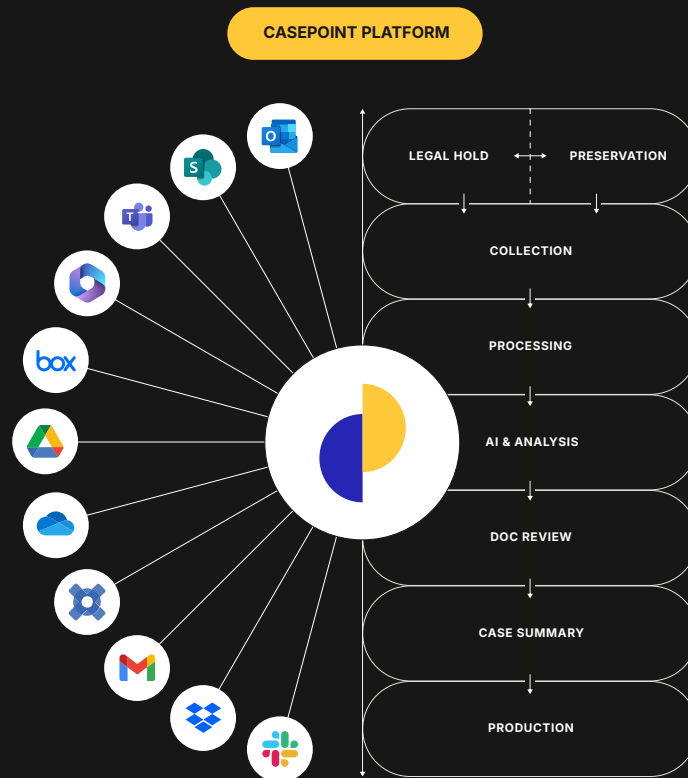

Manage and monitor the entire eDiscovery process — from legal hold to review and production — within Casepoint's powerful, unified platform. That means no more logging in and out of other applications or manually transferring files ever again.

You'll have legal hold, preservation, data collection, data processing, AI-powered analysis, review, production, case summary, and strategy tools right at your fingertips.

Preserve Critical Data With Ease

Casepoint Legal Hold transforms slow, manual processes into streamlined workflows across roles and departments. So you can rest assured it's secure and defensible. Act quickly with automated communications, notifications, and custodian management inside one secure, eDiscovery platform.

LEGAL HOLD | EDISCOVERY | FOIA | INVESTIGATIONS | DATA PRIVACY & COMPLIANCE | FILESTORE DATA MANAGEMENT

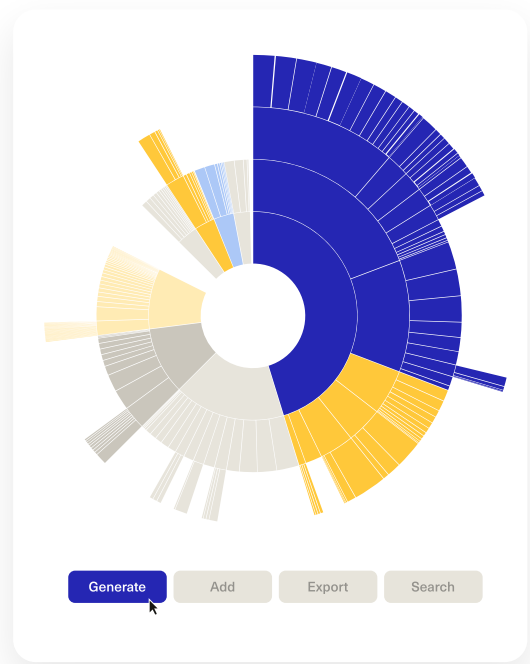

Collect Straight From The Source

Connect all your applications, cloud-based data repositories, collaboration tools, and email databases in one place. Casepoint's API will automate data collection from Slack, Microsoft Teams, and all of your other favorite cloud applications. It will save you time and money, reduce risk, and you'll never have to leave the Casepoint Platform.

AI Technology That's Battle-Tested

Faster and better legal discovery starts with CaseAssist, Casepoint's artificial intelligence and advanced analytics suite that comes built-in at no additional cost.

CaseAssist speeds the entire legal discovery process and enables faster decision-making through accelerated, AI-driven capabilities.
