Enterprise-Grade eDiscovery

Solve Your Complex Data Challenges in One Secure Platform

Say hello to more efficiency, more security, and more control of your data with Casepoint's powerful cloud-based data discovery platform.

Casepoint provides a crafted end-to-end solution for the entire data discovery process. Our scalable technology is trusted by the world's largest corporations and federal government agencies to manage their expanding complex data needs.

▶ No Matter Your Needs, Casepoint Is Fit For the Task at Hand

Legal Hold, Preservation, and Data Collection

Litigation (eDiscovery)

Investigations and Compliance

Data Privacy and Regulatory Responses

FOIA and Public Record Requests

Secure Cloud Data Management and Storage

# The End-to-End Solution You've Been Searching For

Manage and monitor the entire eDiscovery process — from legal hold to review and production — within Casepoint's powerful, unified platform. That means no more logging in and out of other applications or manually transferring files ever again.

You'll have legal hold, preservation, data collection, data processing, AI-powered analysis, review, production, case summary, and strategy tools right at your fingertips.

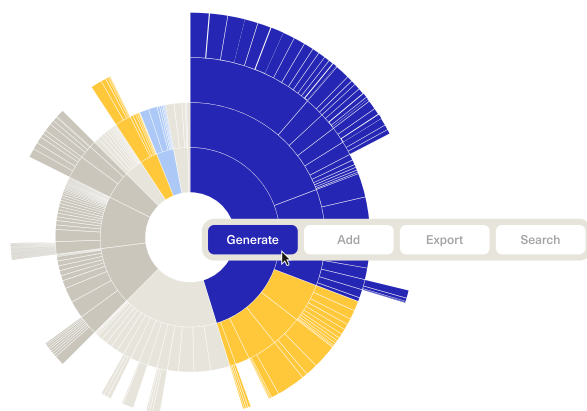

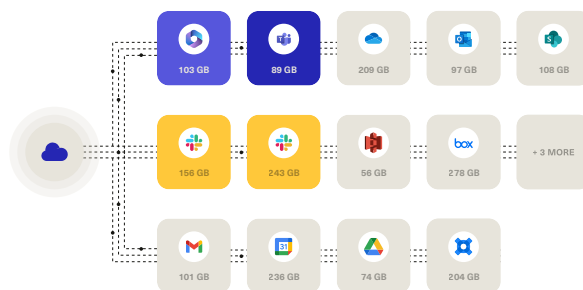

Preserve Critical Data With Ease

Casepoint Legal Hold transforms slow, manual processes into streamlined workflows across roles and departments. So you can rest assured it's secure and defensible. Act quickly with automated communications, notifications, and custodian management inside one secure, eDiscovery platform.

Collect Straight From the Source

Connect all your applications, cloud-based data repositories, collaboration tools, and email databases in one place. Casepoint's API will automate data collection from Slack, Microsoft Teams, and all of your other favorite cloud applications. It will save you time and money, reduce risk, and you'll never have to leave the Casepoint platform.

AI Technology That's Battle-Tested

Faster and better data discovery starts with CaseAssist, Casepoint's artificial intelligence and advanced analytics suite that comes built-in at no additional cost. CaseAssist speeds the entire data discovery process and enables faster decision-making through accelerated, AI-driven capabilities.

| 95%	83%	50%
Of files eliminated for review	Faster time to insight	Deduction in discovery-related costs

Superior Security. Trusted Protection.

The world's leading enterprises, law firms, and government agencies trust Casepoint with their most sensitive data. That's not by accident. Casepoint's number one priority is to keep your data safe and secure.

Casepoint and all of its data centers have obtained and maintained the highest levels of industry security certifications and attestations, undergoing all applicable reviews. At Casepoint, security informs everything we do — always.
